

Testing user interfaces (GUI) and web applications

Assignment

Stefania Pruteanu

*Conduct cross-browser testing of the bugs you found earlier in three different browsers.
Add the results to the previously recorded bugs.*

BUG 1 - Tested within form and after submission, server only checked if ID exists in database:

- Opera 

- Edge 

- FireFox 

BUG 3 - Usability isn't ideal, may be difficult for various users (big hands, shaking etc.)

- Opera 

- Edge 

- FireFox 

BUG 4 - All screenshots were taken after form submission, server only checked if ID exists in db:

- Opera 

- Edge 

- FireFox
